

CHECKLIST

Navigation Failure Checklist

- ☐ Stop driving as soon as you realise signal is lost
- ☐ Note any visible landmarks, junctions, or river crossings from where you stop
- ☐ Orient your paper map to magnetic north using the compass
- ☐ Mark your last known position and estimate the distance travelled since then
- ☐ Confirm your bearing with the sun's position if visible
- ☐ Decide whether you can confirm your position within a kilometre
- ☐ Check fuel and daylight remaining before choosing to move or stay
- ☐ Send a text message with your last known position if partial signal exists
- ☐ Conserve battery and fuel if you decide to stay put
- ☐ Keep the group together; do not split up to search for signal
